

School of Engineering King Mongkut's Institute of Technology Ladkrabang
Qualifying Examination Schedule for Doctoral Students in the 2nd Semester of Academic
Year 2023

As per the regulations stipulated in King Mongkut's Institute of Technology Ladkrabang regarding graduate education 2022, item 33, it is mandated for doctoral students to successfully pass the Qualifying Examination (Q.E.) to be eligible for the thesis examination. The Qualifying Examination entails the following criteria :

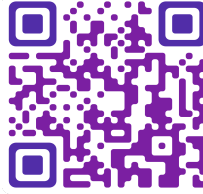

1. Doctoral degree students enrolled in Plan 1 and Plan 2 are required to pass the Qualifying Examination before the thesis outline examination (if applicable) and within 2 years from the commencement of their first semester of study. Failure to do so will result in the termination of student status.
2. The Qualifying Examination may encompass a written and/or oral examination.
3. In the event of failure in the initial Qualifying Examination, students have the option to request a retest by registering for the examination and paying the stipulated examination fee, as announced by the institute in the "Educational Fee Rates," Issue 11, 2018.

Notwithstanding the outlined guidelines, students enrolled in the following programs are directed to submit their request for the Qualifying Examination in an online format via Google Form, adhering to the specified schedule :

1. Doctor of Engineering Program in Department of Electrical Engineering
2. Doctor of Engineering Program in Department of Mechanical Engineering
3. Doctor of Engineering Program in Department of Chemical Engineering
4. Doctor of Engineering Program in Civil Engineering major
5. Doctor of Engineering Program in Field of Study: Agricultural Engineering
6. Doctor of Engineering Program in Field of Study: Industrial Engineering
7. Doctor of Engineering Program in Field of Study: Food Engineering
8. Doctor of Engineering Program in Biomedical Engineering major
9. Doctor of Philosophy Program in Logistics and Supply Chain Management major (International Program)
10. Doctor of Engineering Program in Department of Robotics Engineering and Computational Intelligent Systems (interdisciplinary curriculum)
11. Doctor of Engineering Program in Department of Food Engineering and Intelligent Agriculture

Schedule

1. Students submit a request for qualification examination along with a document explaining Keywords with the approval of the advisor. Submit exam documents online via Google Forms from Monday, January 1, 2024 to Friday, January 12, 2024.

<https://forms.gle/crAmzEQsdaZFMTSZ8>

2. Announcement of the names of those eligible to take the exam via the Graduate Studies website or via institutional e-mail from March 25, 2024 onwards.

3. Oral examination schedule: Wednesday, April 17, 2024 to Tuesday, April 30, 2024.

4. Written examination (for the course Doctor of Engineering in Mechanical Engineering)

Announced on December 28, 2023
