Vision and Mission of King Mongkut's Institute of Technology Ladkrabang (2017-2027)

Philosophy: "Education and research in science and technology are a good foundation for national development."

Resolution: "Committed to education and research to produce human resources with knowledge in science and technology, along with ethics, and preserve the country's good arts and culture."

Vision: "To be one of the top 10 science and technology higher education institutions in Asia by the year 2020."

Mission according to the Institutional Act, which stipulates 4 areas: 1. teaching and learning 2. research 3. academic services 4. preserving arts and culture
